Watch the sun or moon come up or go down and enjoy clean air and the adventure of living outdoors. cosy up by the campfire over chai and hot pakodas instead of mindlessly watching TV.

Activities for Adults and Children

Children can run wild, observe nature and learn how to respect and take care of the environment. There are plenty of activities for the whole family besides the nature walks, trails and games. Try the rope course, or climb up the walls, literally. Or laze in the hammock and gaze at stars! And, of course, experience the thrill of Hyderabad's only zipline.

SCHOOL CHILDREN

Children and teens barely find the time or reason to step outdoor. Outdoor education counters such over protection and isolation from ecology.

A variety of activities give participants opportunities for close contact with nature. Nature workshops designed in a natural setting help children synthesies fun - field learning into an exciting experience that contributes to their growing up.

CORPORATE PROFESSIONALS

As a corporate body or top institution you would be conscious of your most valued asset, your personnel. While they cannot travel too far due to the constraints of an ever-hectic schedule, serenity is within proximity.

Trails has an environment structured to invigorate a jaded executive. keep them fighting fit and watch their wonderful recuperation in nature's own workshop.
